-05	0,5 - 6	0,25 - 3	0,17 - 2	0,13 - 1,5	0,1 - 1,2
-30	2,5 - 30	1,25 - 15	0,83 - 10	0,62 - 7,5	0,5 - 6
-60	5 - 60	2,5 - 30	1,7 - 20	1,25 - 15	1 - 12

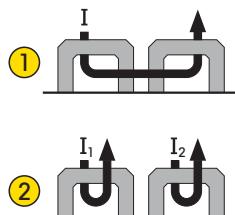

EOCR-AR

EUCR-BR

EOCR-AR / EUCR-BR

I1 fail or I2 fail = FAIL

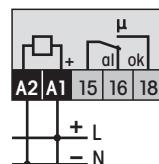

The EOCR-AR and the EUCR-BR monitor overcurrent and undercurrent on AC power circuits.

One or two current paths can be monitored directly up to 60 (75)A, by means of the integrated current loop transformers.

The adjustable alarm delay (t_0) and the automatic alarm resetting (t_R) permit universal usage in motor and transformer protection systems, monitoring of electrical heating elements and in the control of pumps, ventilation systems, suction and feed devices.

The nominal monitoring range in the 3 types -05/-30/-60 can be altered by multiple looping of the conductor (see schedule above).

I₁ fail or I₂ fail or I₃ fail = FAIL

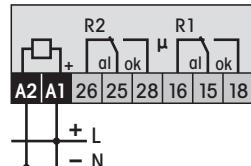

ECR-3D

The ECR-3D is for monitoring overcurrent and undercurrent on AC power circuits.

Three current paths of up to 60(75)A can be monitored directly by means of the integrated current loop transformers.

The adjustable alarm delay (t_0) and the automatic alarm resetting (t_R) permit universal usage in automation and protection techniques. The set values are displayed automatically by setting the respective parameters.

Triggered faults remain stored and displayed until reset.

SRCT-35

Current transformers of the SRCT-35 series transform high AC currents into proportional secondary current in the ratio 10:1 (type -50) up to 100:1 (type -500). With accuracy class 1, coupled with a large power reserve (P_N : 2,5 VA) and high overload capacity up to 150%, the SRCT-35 is the ideal transformer for general applications and for the use with Comat monitoring relays ..AR, ..BR, ..3D.

Power	2,5VA

DC Current Monitor

CT512 (200 mA)

CT515 (2 A)

CT516 (6 A)

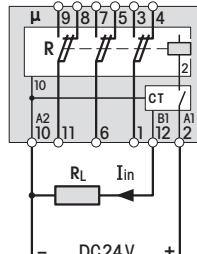

CT512, 515, 516

Economy DC Current Monitoring Relay
with 3 twin changeover contacts.
Without external shunt up to 6 A.

4 functions can be selected:

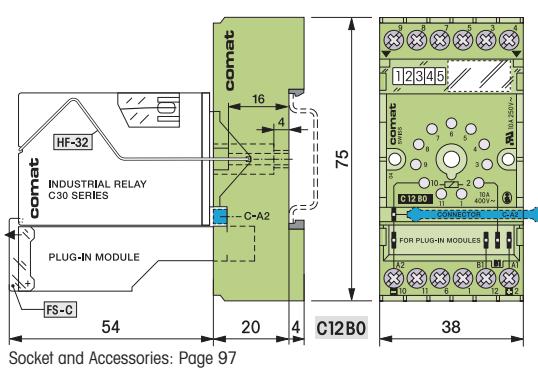

- Overcurrent/undercurrent monitoring with adjustable hysteresis or 2 range monitors (INT or EXT).
- Adjustable alarm delay.
- LED display for error and ok.
- Contact inspection window at the top.
- Manual safety operation.

Voltage drop (2-12)
CT512: ≤ 300 mV
CT515: ≤ 200 mV
CT516: ≤ 100 mV
